produce, friend, plant, lose, turn, fit, study, strange, size

The Amazing Octopus

Among the many amazing animals in the world, few are as 26 and unusual as the octopus. There are around 300 different kinds of octopuses, and they come in all 27! The smallest is only around 2.5 centimetres long, but some octopuses can grow up to more than five metres long. There was even an octopus over nine metres long!

The octopus's body is very interesting. All octopuses have eight arms. Their brain is not just in their head, but also in their arms! This helps them to think about and do more than one thing at once. Octopuses can also 28 into small places because they do not have any bones! And did you know that octopuses have three hearts? These hearts work with different parts of the body.

Octopuses can also do many amazing things. Most of them can change their colour and shape to look like 29 or other sea animals, and they can also make ink. They keep it inside a very small bag in their body. When they 30 ink, the ink makes it hard for other animals to see them. This helps the octopuses to get away fast. What's more, when an octopus 31 an arm, it can grow it back! 32 amazing animals like the octopus is important because we can learn a lot from them. But they also show us how wonderful nature is and why it is important to protect it!

五、完形填空（共12分，每小题1.5分）

阅读下面的短文，掌握其大意，然后从短文后各题所给的A、B、C、D四个选项中，选择最佳选项。

The Broken Traffic Light

One busy afternoon, the traffic light at the town's main crossing suddenly stopped working. Cars honked (鸣笛) loudly, and drivers got angry because of the terrible traffic. A group of students walking home saw the 33. They had just learned about traffic safety in school and they knew they had to do something to help.

The leader of the group, a boy named Sam, 34 that they should guide the traffic. At first, his friends were afraid. "What if we make things worse?" one of them asked. But Sam said to them, "Remember what the teacher said? Following 35 and staying calm can solve even the hardest problems." With confidence, the kids decided to take action. They divided into two groups and stood on different sides of the crossing. Using their hands, the kids 36 to the drivers when to stop and when to go. Some drivers laughed, "Kids can't do this!" But soon, they realized the kids knew what they were doing. The traffic began to move, the honking stopped and everything was in order again.

When the police arrived, they were 37 to see the kids guiding the traffic so well. "You did a great job!" one officer said. The next day, the town mayor (镇长) visited their school. He thanked the kids 38 and gave them prizes in front of the whole school. The kids felt proud and also realized something important: rules can 39 everyone. Whether it's traffic lights or school rules, following them helps keep everyone safe.

From that day on, the kids became local heroes. They also started an activity in their school to teach younger students about traffic safety. They learned that even small actions can make a big 40, and that courage and teamwork can solve problems in surprising ways.
